Leverage your investment.

docSTAR QP unlocks the full potential of your digital copier affordably and easily. In moments you will be eliminating paper and providing employees the ability to instantly retrieve documents.

Fast setup, easily learned.

docSTAR QP quickly connects to your digital copier in minutes. Everyone in your office can learn to scan documents, file and retrieve them.

Easy to use.

docSTAR QP is preconfigured to file all common office documents. Anyone can access stored documents through our Windows-based software.

Compatibility.

docSTAR QP is compatible with all digital copiers* so your investment is protected and flexible for the future!

Low cost.

docSTAR QP is the least expensive path to a complete document imaging solution. Leverage your digital copier investment and start scanning with docSTAR QP today.

Room to grow.

As your needs grow, docSTAR QP will grow with you. Built on docSTAR's extensible architecture, it can grow to handle hundreds of users and millions of documents and all of your compliance requirements.

Scanning directly to docSTAR.

Scanning

Walk up to your digital copier, enter a couple of keywords, and scan - your document is securely filed.

Retrieving

From your PC, retrieve any document instantly - view, print, fax, or email without having to leave your desk.

docSTAR QP is the easy, fast, smart path to document imaging:

- ★ Extend the capabilities of the digital copier
- ★ Boost office efficiency
- ★ Improve customer service
- ★ Eliminate the chaos of lost or misplaced files

*Digital copier must be equipped with "scan-to-folder" capability.
