Corporate Business Systems
Solutions That Run Business

ENX - Elite Dealer
2016, 2016, 2017, 2018, 2019, 2020, 2021
7 years in a row!

Corporate Business Systems Selected ENX Elite Dealer
Office Technology and Services Provider Recognized for Overall Excellence

Madison, Wisconsin - Independent multifunction product (MFP) dealer Corporate Business Systems was named an Elite Dealer by ENX magazine. Corporate Business Systems, an office technology and services provider, is proud to be selected to the highly-regarded industry publications exclusive list.

The year's complete list of Elite Dealers - represents dealer/retailer ranking in scope from more than \$100 million in yearly revenues to those with less than \$5 million annual sales - appears in ENX's December issue.

The list celebrates entrepreneurship as well as innovative marketing and sales initiatives, customer care, corporate citizenship, and community involvement. ENX is a print and online publication for dealers and retailers of office technology, solutions, and services.

Biggest Accomplishment of the Past Year:
Corporate Business Systems is on pace to register its most successful year in company history.

Why We Consider Corporate Business Systems Elite:

- **Refined offerings.** Corporate Business Systems is constantly evolving its product and service offerings to provide the best possible experience for customers. One of the reasons for its biggest year to date is the focus on three critical offerings—production printing, document imaging and MFP.
- **Top talent.** The dealer's biggest win came courtesy of a distributor with national exposure.
- **Working as a team.** President Mike Blaser understands the need to foster a working environment that strikes a balance between meeting the needs of the business and the personal lives of the company's team members. Success in business helps provide a fun environment.
- **Strong work.** Corporate Business Systems supports many profit organizations through monetary and office equipment donations. Team members also aid organizations that care for developmentally disabled adults.

COLLABORATION

Stay connected to everyone and everything with UC One. UC One is a collaboration app that lets you call, message, and meet with anyone from any device. It includes full HD video, voice, messaging, desktop sharing, and conferencing in an easy-to-use cloud application that integrates with your other cloud business apps.

[VIEW VIDEO](#)

CALL RECORDING WITH AI

Access voice data with call recording. Unlimited playback of your encrypted recordings are available in cloud based storage for seven years. Advanced capabilities unlocked with artificial intelligence are designed to help you better understand customer retention and support challenges. Discover trends with text transcription. Quickly identify negative calls and reduce churn risk using sentiment analysis. Receive notifications when calls are rated negatively with intelligent alerting.

CRM INTEGRATION

CRM integration empowers you to get the highest value from Managed Voice unified communications, increasing productivity, improving workflow and increasing data capture across sales and service teams.

- Automatically capture and log all calls in CRM
- Enhanced reporting on call performance of users
- Integrate voice with existing CRM omnichannel capabilities

Start capturing high-velocity data, streamline common administrative tasks, and improve the customer experience.
